

AESW

The BRITEK Sensor Flow unit is a wall-mounted, sensor-operated trip-and-run or wave-on/wave-off activation plate for sinks and basins. Available with spout or as a standalone sensor plate, it provides reliable hands-free water control using an infrared beam that detects movement within approximately 7cm.

Features and Benefits

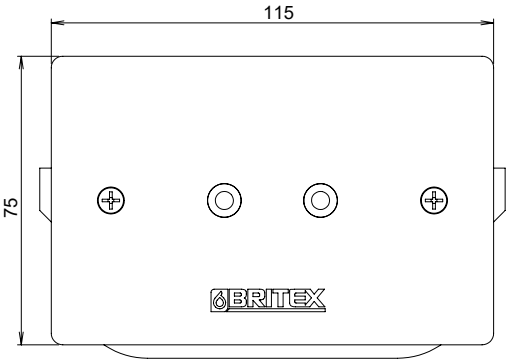

- **Hands-Free Activation** – Infrared sensor operation triggers water flow instantly for easy, touch-free use.
- **Improved Hygiene** – Minimises physical contact and touchpoints, to help reduce cross-contamination.
- **Wall-mounted Installation** – Mounts directly above sinks and basins and reliable sensor performance.
- **Flexible Configuration** – Available as a standalone sensor plate or paired with a spout.

Sample Spec

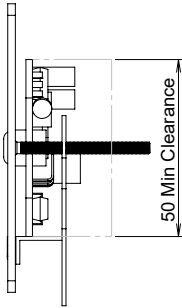

Britex Wall Mounted Sensor Plate Only - Product Code AESW

*RED TEXT may denote a **variable** where one option only is to be selected, a **nominal dimension** that needs to be specified, or an **optional feature** that can be removed if not required. Please refer to the back of this page for additional specification details and options.
