

BSSP-WF-G

The BRITEX SafeHold® Damage Resistant Ligature Resistant Pan is manufactured from a unique, robust solid-surface material that provides a reliable, vandal-resistant and softer aesthetic suited to institutional environments. It is highly suited to mental health facilities, prison custody cells, detention environments, care homes, public amenities, parks, stadiums, hospitality projects and hospitals.

The back-to-wall pan features a one-piece rimless bowl that provides a ligature-resistant, contraband-proof and secure solution for at-risk applications. The polished solid-surface material ensures the unit remains easy to clean and hygienic. Modern styling helps normalise the environment, supported by a fully rimless hygienic flush design with no internal ledges or steps, reducing staining and preventing water from sitting on surfaces where limescale can build.

Features and Benefits

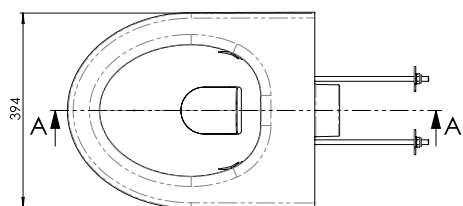

- Grey integral moulded seat aids the visually impaired.
- Polished high gloss effect which can provide a normalised look in mental healthcare applications or institutional environments.
- Damage resistant material to help reduce weaponisation within a secure environment.
- Unique ligature resistant design features to minimise self-harm.
- Rimless design providing a high level of hygiene and contraband proof.
- Contrasting colour integral seats are standard with a range of SafeHold WC Pans
- Bolt to Floor comes as a standard option and standard bolt through wall fixings.
- Non-Flammable - BS476 Pt 6 & 7 Class '0' and Class '1'
- ISO EN 19712-3-2007 Rated 5 for durability, stain resistance and cigarette burn.
- WaterMark Approved to AS/NZS 1172.1
- WELS rated 6/3 Litre Flush (3 Star)
