

FHC

The BRITEK Hygiene Clean system is a mains-powered, concealed device that automatically flushes waterless urinals at set intervals. By emitting small volumes of water, it prevents uric salt build-up, protects plumbing, and maintains hygiene without the need for a cistern.

Features and Benefits

- **WaterMark Certified** – Proven performance, efficiency, and adherence to Australian plumbing standards.
- **Secure Installation** – Fully concealed, vandal-resistant design connects directly to mains water supply.
- **Flexible Operation** – Adjustable flush intervals (4-12 hrs) and volumes (4-12 sec) to suit different environments.
- **WaterMark Certified** – Reliable, efficient, and compliant with Australian plumbing standards.

Sample Spec

BRITEK Hygiene Clean System - WaterMark certified. *Single/Dual* solenoid unit supplied with mains-power pack - Product Code FHC*X*

*RED TEXT may denote a **variable** where one option only is to be selected, a **nominal dimension** that needs to be specified, or an **optional feature** that can be removed if not required. Please refer to the back of this page for additional specification details and options.

HOW TO SPECIFY: Hygiene Clean

Sample Specification Code

A **B**
FHC 1
= Hygiene Clean with
Single Solenoid Unit

Specification Key

A = Product Code
B = Solenoid Model
1: Single
2: Dual

Model Selector

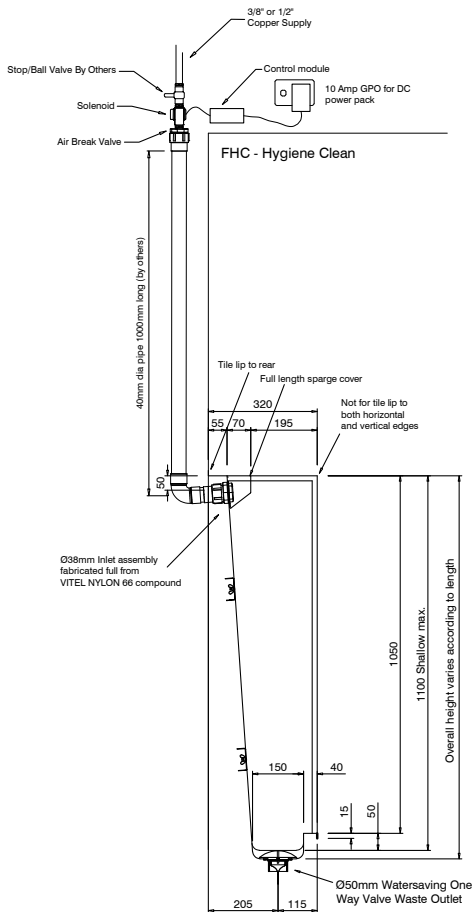

Waterless Urinals	Model Required
1	FHC 1
2	FHC 2
