

FLF2

The Britex Stainless Steel Conical Flushing Sink features an integral conical bowl with a concealed flushing rim for hygienic waste disposal. Designed for use in healthcare and aged care facilities, it efficiently flushes all internal bowl surfaces and is also suitable for use as a wine spittoon in wineries and wine retail outlets.

Features and Benefits

- **Integral Flushing Bowl** – Cone-shaped bowl with 100mm tube dropper waste enables efficient removal of liquid and solid waste.
- **Concealed Internal Flushing Rim** – Perforated tube around the bowl rim flushes all internal surfaces when connected to a flush valve e.g. an in-wall cistern.
- **Flexible Installation & Utility Options** – Can be wall-mounted or installed on joinery; also available in a dedicated 'Dirty Utility Sink' configuration (LDUS).
- **Custom Sizes Available** – Fully custom fabricated to suit individual project requirements and design specifications.
