

FLI2

The BRITEX Stainless Steel Conical Inset Flushing Sink features a top flange for seamless installation into solid surfaces. Its conical bowl design features a concealed perforated tube for efficient and hygienic waste removal. Ideal for use in healthcare, aged care, food processing, and winery settings.

Features and Benefits

- **Grade 316 Stainless Steel** - Fabricated from 1.2mm acid-resistant stainless steel for durability.
- **Inset or Weld-In Options** - Integral top flange for secure inset mounting. OEM version without flange is also available for welded installation into benchtops.
- **Concealed Internal Flushing Rim** - Flushes liquid waste from all internal bowl surfaces when connected to a flush valve.
- **100mm Dropper Waste Available** - Fitting enables efficient vertical drainage beneath the bowl.
