

LB

The BRITEX Stainless Steel Laboratory Bowl is a hand-fabricated and designed for inset or undermount installation, making it ideal for science classrooms and laboratory environments. Available in standard or custom sizes, with optional tapware and waste fittings to suit a range of applications.

Features and Benefits

- **Grade 316 Stainless Steel** - Fabricated from 1.2mm acid-resistant stainless steel, ideal for harsh lab environments.
- **Inset or Undermount Installation** - Flexible mounting options to suit different bench configurations.
- **Custom & Standard Sizes** - Choose from stocked sizes or request custom dimensions for specific project requirements.
- **Tapware Compatibility** - One flange can be extended from 32mm to 80mm to accommodate tapware installations.
