

PLDAM

The BRITEX Long Drop Ambulant Toilet Pan is seamless, fully shrouded and manufactured from heavy-duty grade 304 satin stainless steel making it easy to clean and providing optimal strength. It is designed to conform to Australian Standard, Design for Access and Mobility – AS1428, with respect to ambulant users. Generally used in remote areas, parks and gardens, and roadside comfort stations, these pit toilet pans are manufactured to be vandal-resistant and incorporate a large radius to the edge for safety and comfort. The internal chute is contoured to reduce soilage and maximise hygiene and features a parallel collar for the inclusion of a flexible pipe fitting if required. Access panels are standard on both sides of the pan for easy installation with a black closed-lid toilet seat. A rear blanking panel changes the Long Drop from wall/floor fixed to a free standing floor fixed pan.

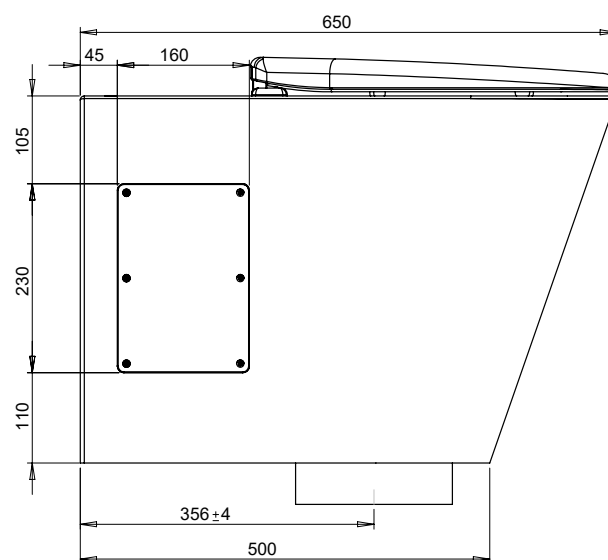

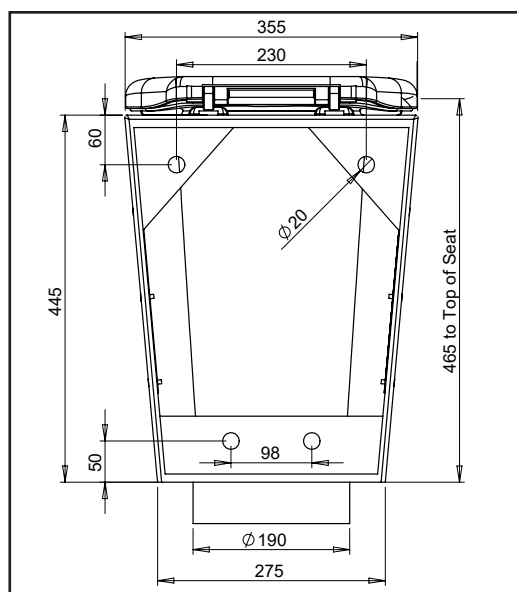

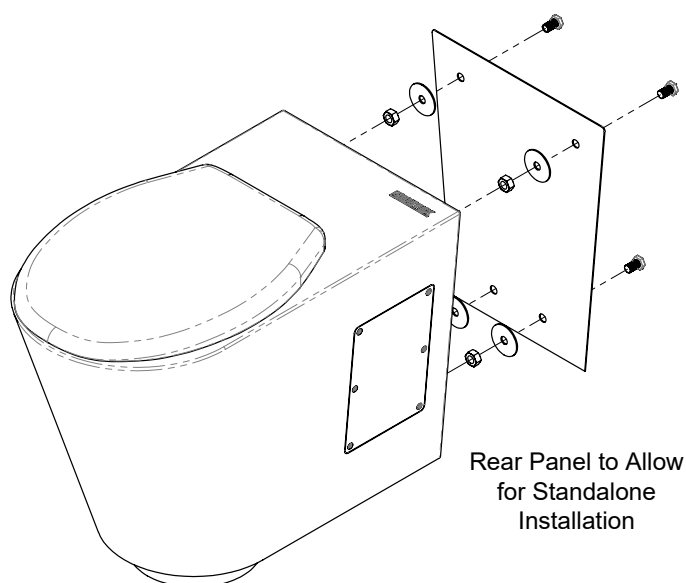

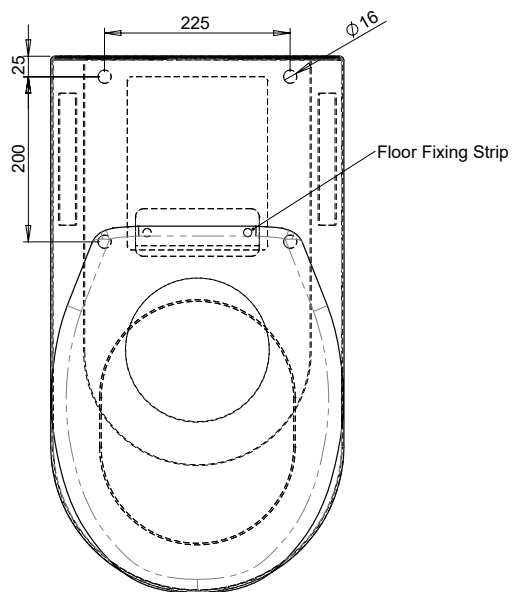

Features and Benefits
