

PLDD

The BRITEX Long Drop Disabled Pan is seamless, fully shrouded and manufactured from heavy gauge grade 304 satin stainless steel, making it easy to clean and providing optimal strength. It is designed to conform to Australian Standards for disability access. Generally used in remote areas, parks and gardens, and roadside comfort stations, these toilet pans are manufactured to be vandal-resistant and incorporate a large radius to the edge for safety and comfort. The internal chute is contoured to reduce soilage and maximise hygiene and features a parallel collar for the inclusion of a flexible pipe fitting if required. Access panels are standard on both sides of the pan for easy installation with a black closed-lid toilet seat. A rear blanking panel changes the Long Drop from wall/floor fixed to a free standing floor fixed pan.

Features and Benefits

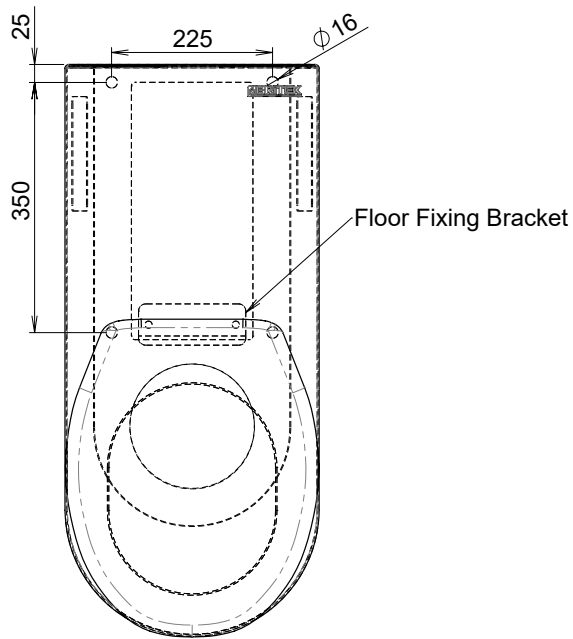

- 2 in 1 free standing or rear/front fixed
- Accessibility code AS1428 compliant
- Concealed fixings
- Safety radius front edges
- Left and right access panels
- Fitted black closed toilet seat
- Free of ligature points
- Option for 'Ambulant' model (raised height only)
- Suits public amenities
- Satin stainless finish
