TP6

The BRITEX Accessible Drinking Trough is particularly suited to school and university projects. The AS1428 compliant Drinking Trough includes pre-plumbed Drink Safe® low lead water efficient push button drink bubblers with bacteria and sunlight-resistant rubber compound mouthpieces for added safety in the event users are bumped whilst drinking. The fully welded stainless steel troughs and rounded corners internally and externally ensure easy cleaning and provide added safety in high-traffic areas. Disabled access drinking stations can be supplied at either the left or right hand end. Also available refrigerated.

Features and Benefits

- Drink Safe® low lead WaterMark & WELS approved tapware
- Optional one or two bottle fillers at either or both ends for easy filling with piezo activation
- Piezo activated and hygiene rinse every 24 hours that provides reassurance of stagnated supply of water
- Pre-plumbed
- Bacteria and sunlight-resistant bubblers with rubber compound mouthguards
- Standard and accessible access stations to comply with AS1428
- Radius corners for easy cleaning and added safety
- 50mm waste
- Available in refrigerated model
- Ideal for schools and community centres
