

TST

Most common configuration illustrated:
Wall Mounted trough with 450 upstand

The BRITEX Stainless Steel Surgeon's Scrub Trough is built for surgical scrub-up in hospital and medical facilities. Made from high-grade 304 or 316 stainless steel with a robust double-skinned front fascia, it delivers a durable, hygienic solution that can be customised to suit a range of project requirements.

Features and Benefits

- **Suitable for Scrub-up Procedures** - Designed specifically to meet the requirements of surgical scrub-up procedures in clinical settings.
- **Hygienic, Seamless Construction** - Fully welded internal surfaces with radius corners and a drip-cone front fascia to reduce spills and support easy cleaning.
- **Wall Mounted Installation** - Supplied with wall fixings for secure, straightforward mounting, keeping floors clear and maximising usable space in clinical areas.
- **Customisable Configuration** - Custom lengths, tapware options, left or right waste positions (50mm waste supplied) and optional end or rear upstands.

Sample Spec
