

UESI

Most common configuration illustrated

The BRITEX Esiflow Urinal features a seamless design with reinforced backing on larger models for added strength. Its unique weir-style flush maximises efficiency while minimising water use.

Features and Benefits

- **WaterMark Certified** – Meets stringent plumbing standards for quality, safety, and compliance.
- **Vandal Resistant Design** - Robust stainless steel build suited to high-traffic public environments.
- **Custom Lengths Available** - Manufactured to suit specific project requirements, ensuring a perfect fit every time.
- **Sensor Flush Compatibility** - Integrates seamlessly with BRITEX sensor-activated flushing systems.
- **‘L’ or ‘U’ shaped configurations** - Flexible design options for corners or continuous wall runs.

Sample Spec

Britex Stainless Steel Esiflow Urinal **1800mm** long. WELS and WaterMark certified. **Rear** water entry. Supplied with a **FSM1** Smart Flush solenoid & sensor box. **100mm** outlet size and **Left** waste outlet. Product Code - UESI-1800-R-FSM1-100-L

*RED TEXT may denote a **variable** where one option only is to be selected, a **nominal dimension** that needs to be specified, or an **optional feature** that can be removed if not required. Please refer to the back of this page for additional specification details and options.

HOW TO SPECIFY: Esiflow Urinal

Sample Specification Code

A	B	C	D	E	F
UESI	- 1800	- R	- FSM1	- 100	- L

= Esiflow Urinal 1800mm long with Rear Entry paired with FSM1 flushing, 100 outlet size and Left Hand Waste

Specification Key

A = Product Code

B = Urinal Length (mm)

C = Entry Point

T: Top Entry

R: Rear Entry

D = Flushing Options
(Rear entry only)

FSM1 (1800mm max urinal length)

FSM2 (1801mm+ urinal length)

E = Outlet Size

100

Custom

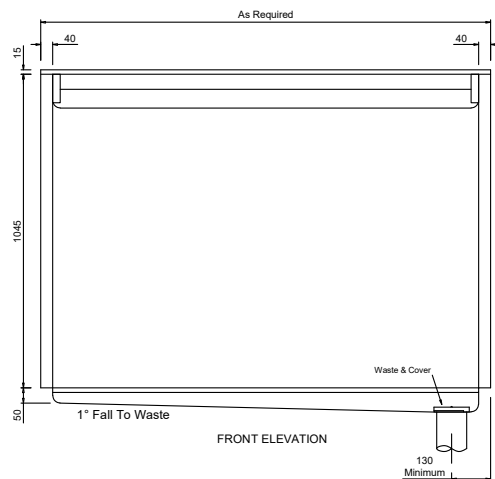

F = Waste Outlet Position

L: Left

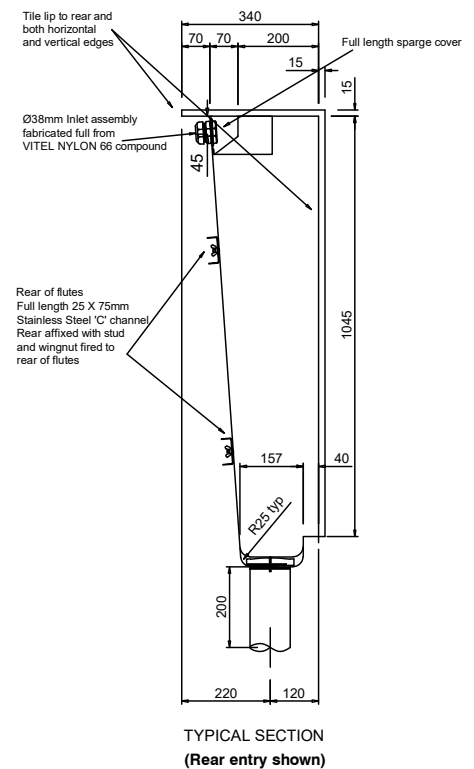

R: Right

C: Custom
