

PTSCAM

The BRITEK Stainless Steel Ambulant Toilet Suite is a robust yet stylish, compact suite that incorporates a vandal-resistant toilet pan and dual flush cistern. It is designed to conform to Australian Standard, Design for Access and Mobility - AS1428, with respect to ambulant users. A pressed internal bowl area and unique trap design make the pan extremely water efficient and much less susceptible to costly blockages in public amenities. Being close-coupled, the suite is hygienic, highly resistant to vandalism and allows for easy cleaning. Perfect for public toilets and areas that require high-security fixtures without compromising on aesthetics. WaterMark and WELS are certified as required by plumbing regulations and government legislation.

Features and Benefits

- WELS and Watermark-certified
- AS1428 compliant ambulant toilets
