

TCA

Most common configuration illustrated

The BRITEX Stainless Steel Wall Mounted Clay & Ablution Trough is multipurpose in design and is commonly found in practical activity education classrooms. One-half of the trough is supplied with a raised (standing) waste, ensuring solid matter like clay, plaster and soil settles in the bottom of the trough, whilst clean water drains through the perforated top, thus preventing blockages. The other half of the trough is used for general-purpose hand washing. Radius internal bowl corners allow easy cleaning and a 50mm splashback hob conceals tapware connections. Available complete with preplumbed tapware and compatible with the BRITEX Plaster and Clay Arrestor (OSPC).

Features and Benefits

- Available with or without tapware
- Multipurpose, versatile trough
- Concealed tapware connections
- Fully welded construction
- Separate bowls for utensils & hand washing
- Utensil bowl includes riser waste that prevents solids from entering plumbing
- Waste outlets & wall brackets supplied
- Radius internal corners - easy cleaning
- Optional Plaster and Clay Arrestor (OSPC)

Sample Spec

BRITEX 1.2mm grade 304 S.S. Clay & Ablution Wall Mounted Trough with 280mm Boxed Upstand- 1830L x 410W x 150D. Complete with wall brackets and radius internal bowl corners.
