

TPAHW-DDA

Most common configuration illustrated

The BRITEX Accessible Hand Wash Trough is particularly suited to school and university projects. The Accessible Hand Wash Trough includes pre-plumbed low lead lever activated tapware that is easy to operate and compliant with AS1428. The fully welded stainless steel troughs, with radius external corners, provide added safety in high-traffic areas. Accessible hand wash troughs can be supplied with either the left or right hand side waste. Also available with sensor tapware.

Features and Benefits

- Wash Safe® low lead WaterMark & WELS approved tapware
- Pre-plumbed
- Accessible design to comply with AS1428
- Radius external for added safety
- Wall fixed design
- Concealed tapware connections
