

TPWD

Most common configuration illustrated

The BRITEX Stainless Steel PWD Wall Mounted Trough can be used as either a drinking or wash trough. Fully welded, rounded corners both internally and externally ensure easy cleaning and provide added safety in high traffic areas. A 50mm hob in the splashback eliminates the need for rear wall penetrations and conceals all tapware connections. The PWD trough is supplied with heavy duty wall brackets and/or legs and can be supplied with tapware if required. For 'Pre-Plumbed' PWD Troughs please refer to TPWDPD/TPWDPH.

Features and Benefits

- Available with or without tapware
- Concealed tapware connections
- Standard and custom lengths
- 50mm waste & wall brackets supplied
- Left or right hand waste position
- Radius internal corners - easy to clean
- Radius external corners - added safety
- Ideal for schools, kindergartens, factories and public amenities
