

UBW

Most common configuration illustrated

The BRITEX Barren Waterless Urinal is a contemporary looking urinal which provides enormous water saving benefits without compromising on aesthetics. Key to the Barren is its unique outlet that requires no costly replaceable cartridge, sealant fluid or biological block. Instead, the Barren utilises a self-sealing one-way diaphragm that allows urine to pass, whilst trapping odours within the plumbing. Robust in construction but sleek in profile, the Barren Waterless Urinal is highly vandal resistant, easily retrofitted and is also available in an Auto Clean model with timer-activated cleansing device. Perfect for public toilets, clubs and hotels. WaterMark certified as required by plumbing regulations.

Features and Benefits
